

EPFL celebrated the new PHI XPS & PHI AES equipment

Lausanne, Canton de Vaud (CH), 03 February 2015 – The surface analysis platform of the Molecular and Hybrid Materials Characterization Center (MHMC) has been extended.

A large audience of more than 70 people responded to the invitation of Prof. H.-A. Klok (Head of MHMC) and Dr. S. Mischler. They were celebrating the acquisition of their 2 new PHI machines.

The EPFL¹ internal information event² enjoyed great interest.
The MHMC`s portfolio enhancement:

- A PHI VersaProbell XPS with C60 and GCIB
- A PHI 680 Scanning Auger

Physical Electronics wants to thank the EPFL for their confidence and is looking forward to a joint cooperation according to the motto Sharing X-Perience.
